

CONTRACTOR GRADE TRACTION TAPE

True Grip grade non-skid grit tape is an excellent choice for most general purpose applications. The tape is constructed of a durable 46-grit mineral abrasive compound for excellent longevity in both indoor & outdoor applications. We employ the use of a solvent based acrylic adhesive system to allow for adhesion over a wide variety of surfaces, while offering good water and chemical resistance. Our adhesive system allows for even higher initial bonding, yet still removes cleanly for replacement. Custom slit widths and die-cut cleats also available. Meets or exceeds OSHA 1910.24 and 1910.26

Adhesive system allows tape to be lifted just after application to allow for proper placement every time

- High Traction Surface • Aggressive Adhesive System • Durable Abrasive Grit • Water Resistance
- 46-Grit Non-Skid Surface • Custom Slit Widths
- Indoor/Outdoor Applications

CONTRACTOR GRADE TRACTION CLEATS

True Grip non-skid grit tape is available in pre-cut cleats to give a professional look to any installation. These cleats are made from the same quality product as our tape substrate and are available in a variety of stock sizes. All cleats come with rounded corners to reduce tape lifting and flagging. We also offer custom die cutting and printing for your specific application. Suitable for indoor & outdoor applications. Our True Grip cleats meet or exceed OSHA 1910.24 and 1910.26

• High Traction Surface • Aggressive Adhesive System • Durable Aluminum Oxide Grit • Water Resistance

• 46-Grit Non-Skid Surface • Rounded Corners • Custom Die Cut Available
