

Ultra Durable Floor Tape

Tuff Mark was designed with feedback from customers looking for an extra-durable, low profile, easy to apply demarcation product. Tuff Mark is made using the finest materials in the industry to offer a performance product that will last up to 10 times longer than standard aisle marking products.

Tuff Mark can be easily cleaned and it's low profile will ensure that it does not cause a disruption to fork truck traffic. The printed color is buried beneath 5 MILS of a thick, clear, abrasion and chemical resistant protective layer.

Low profile design will ensure that the tape does not present a hazard to fork truck traffic or pedestrians.
