

REFLECTIVE TAPE PRODUCTS

Engineer Grade Reflective Tape

Looking for increased awareness? Try our line of Engineer Grade Reflective Tapes. These tapes offer vibrant daytime visibility with reflective properties for nighttime use. All solid color tape is rated for use outdoors for a 7-year life span. Tape has an aggressive adhesive that will adhere to almost any clean, dry, smooth surface and meets ASTM D-4956 Type I. Hazard striped products have a protective lamination to ensure the printed stripe will not wear off. Tape comes with removable release liner. This product is not intended for vehicle application. Custom printing and conversion also available. We also offer our entire range of reflective products in large format rolls. Striped product is not intended for long-term outdoor applications.

RST100 - Green 2" x 30'/roll

RST101 - White 2" x 30'/roll

RST102 - Red 2" x 30'/roll

RST103 - Blue 2" x 30'/roll

RST104 - Yellow 2" x 30'/roll

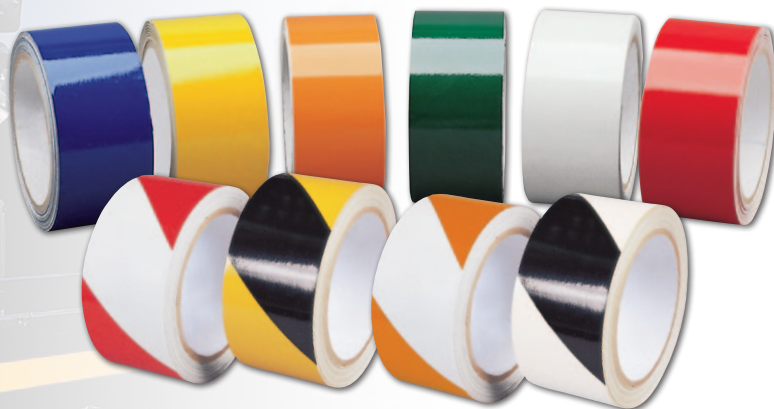

RST105 - Orange 2" x 30'/roll

RST106 - Yel/Blk 2" x 30'/roll

RST107 - Red/Wht 2" x 30'/roll

RST110 - Blk/Wht 2" x 30'/roll

RST109 - Org/Wht 2" x 30'/roll

ENGINEER
Grade
Meets ASTM D-4956 Reflectivity Type I

APPLICATIONS:

- Post and railing markings
- Loading docks
- Low hanging hazards

Vehicle Grade Flexible Reflective Tape

Our Reflective Vehicle Grade (RVG) Retro-Reflective sheeting is a product manufactured primarily for use as fleet markings, vehicle markings, stickers & decals, etc. However, it can also be used on commercial signs and various labels and highly resistant against the extremes of hot, cold, dry, and humid weathering conditions. The sheeting is formulated specifically to have greater flexibility but still capable of offering high retro-reflective surface. The tape comes with a release liner to allow easier handling and to protect the pressure sensitive permanent adhesive. Best results are obtained when applied to flat surfaces, but it can be applied successfully to corrugated materials. When the RVG series retro-reflective sheeting is handled and applied properly it will have a performance life of 7 years when exposed vertically. Due to the wide variety of applications, we recommend that only professionals with experience in fleet or vehicle graphics install this product. Once installed it becomes very difficult to remove or augment and may cause damage to the surface applied to. We are not liable for any damages resulting from the use of this product.

RVG250BK - Black 2" x 50'/roll

RVG250BL - Blue 2" x 50'/roll

RVG250GL - Gold 2" x 50'/roll

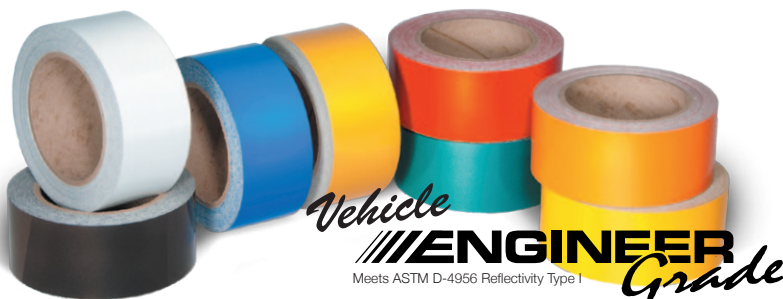

RVG250GR - Green 2" x 50'/roll

RVG250NG - Orange 2" x 50'/roll

RVG250RD - Red 2" x 50'/roll

RVG250WH - White 2" x 50'/roll

RVG250YL - Yellow 2" x 50'/roll

Meets ASTM D-4956 Reflectivity Type I

APPLICATIONS:

- Fleet vehicle markings
- Trailers
- Tow motors and forklifts

Conspicuity DOT-C2 Reflective Tape

Exceeds the requirements of NHTSA (49 CFR 571), and every strip carries the DOT-C2 certification for compliance. This conspicuity tape meets the industry's highest visibility guidance in wet or dry weather conditions with full reflective strength from distances of 1,000 feet or more. Easy to apply, our tape sticks to a variety of surfaces including fiberglass, aluminum and painted steel (please make sure surface is clean, dry and oil free before application). Please contact customer service for information on our custom imprint program. We are able to add your company name or logo to any of our conspicuity products.

- V57203** - Red/Wht (11"/7" Pattern) 2" x 150'/roll
- V57203SR** - Red/Wht (11"/7" Pattern) 2" x 30'/roll
- V5720WH** - White 2" x 150'/roll
- V5720P25** - Red/Wht (11"/7" Pattern) 2" x 18"/strip

APPLICATIONS:

- Tractor trailers
- Fleet vehicle markings
- Tow motors and forklifts

High Intensity Reflective Tape

Super Brite is an excellent choice for marking anything that requires a high level of night time visibility, and a with a long term life cycle. The tape has an excellent entrance angularity and high intensity micro-prismatic surface. An aggressive adhesive system that will adhere to most any clean, dry surface. High Intensity product has a reflective value of over 4 times that of our standard engineer grade products. Intended for application on relatively flat surfaces only. Product meets or exceeds ASTM D-4956 Type III/IV. Striped product is not intended for long-term outdoor applications.

- HRT2300R** - Orange 2" x 30'/roll
- HRT230RD** - Red 2" x 30'/roll
- HRT230WH** - White 2" x 30'/roll
- HRT230YL** - Yellow 2" x 30'/roll
- HRT230BL** - Blue 2" x 30'/roll
- HRT230GR** - Green 2" x 30'/roll
- HRT230RW** - Red/White 2" x 30'/roll
- HRT230YB** - Yellow/Black 2" x 30'/roll

APPLICATIONS:

- Gates and barriers
- Beams and posts
- Equipment

Superbrite

Meets ASTM D-4956 Reflectivity Type III/IV
