

Technical Data Sheet

Outdoor UV Protective Film (UV200 Series)

Issue Date: Dec 2020

DESCRIPTION

Outdoor UV Protective Film (UV200 series) is ideal for use in manufacturing workplace safety and guidance signage. This clear film creates an all-weather protective barrier that is UV, weather, chemical and abrasion resistant. UV200 series is a quality, durable, acrylic film that is designed to be laminated over retroreflective film, pressure-sensitive adhesive vinyl, rigid acrylic, aluminum and ACM.

Construction	High gloss acrylic film with a permanent pressure-sensitive adhesive protected with a removable liner.
Typical Film Caliper	4 mils (0.004") 100 μ m
Durability	Up to 12 years, vertical exposure only. Warranty is dependent on base sheeting and product application.
Watermark	UV200 series does not have a watermark.
Service Temperature	-10°F to 150°F (-23°C to 65°C)
Shelf Life	1 year from the date of purchase when stored at 65°F to 75°F (18°C to 24°C) 50% +/- 5% R.H.

WARRANTY

The determination of the suitability of this product for any specific use is solely the responsibility of the user. No representations, guarantees or warranties of any kind are made to the accuracy or suitability of information in this document to any specific applications. INCOM warrants its products to be free from defects but limits its obligation to replacement of products that have been proven, to INCOM's satisfaction, to be defective. This warranty is non-transferable and only applies to customers buying directly from INCOM. INCOM is not liable for any loss, damage, expenses, or consequential damages arising in connection with the use of this product.
